

Mirrored Glass

Product Categories: [Sheet glass](#)

Product Page: <https://breakawayfx.com/product/mirrored-glass/>

Product Description

We can produce breakaway mirror, which has identical properties to our standard breakaway sheet glass. There is a maximum size which is limited by the mirroring process; (1219mm x 813mm) or (48" x 32"). Mirrored sheets can also be moulded to be shaped or curved within these dimensions. The reflection quality is visually perfect within a few feet.

Breakaway mirrored sheet glass is priced per square foot, plus mirroring and any setup & crating charges. Each piece is poured to size and neither the size nor the mirroring can be adjusted once made, so its best to make absolutely sure of your specifications before you confirm an order. The thickness ranges from 4mm for the smallest upto 7mm for the largest sheets, but this is completely dictated by the size of a given sheet, and the thickness of the glass doesn't correspond to its strength. Please note that as a thermoplastic material, sheet glass can contract by
